Dear Members of the Excelsior District Improvement Association

Thank you to the members of EDIA for giving me the opportunity to meet and talk with you this past week. There were many questions raised regarding community-based organizations funded by DCYF, their outreach methods and the number of Excelsior residents served by such programs. I hope that I adequately answered some of your concerns and I will dig deeper into the data that DCYF uses to assess community providers.

I would like to point you to our website, www.dcyf.org, as well as to that of SF Kids, www.sfkids.org, both of which are excellent resources for learning about a wide variety of services in the City available to Excelsior children, youth and families. Additionally, I have asked the Excelsior Community Convener contact you soon to learn about effects methods for reaching neighborhood residents.

I look forward to returning to future EDIA meetings with additional updates.

Sincerely,

Maria Su
