The members of the Excelsior District Improvement Association would like to thank you for your many years of service to the City and most particularly for your efforts to enhance the quality of policing in our neighborhood and willingness to engage our residents during a particularly difficult time in our recent history. If at some (long!) future date you have any interest in talking to us about your experiences, thoughts, etc. you would be most welcome to do so. Best wishes for your post-S.F. police life.

EDIA
